

# Instructions for Card Carry Case

## *Supplies needed:*

*1 8.5x11 sheet of cardstock, any color*

*Stamps and ink as desired*

*Coordinating cardstock for a tag*

*Coordinating ribbon for handles*

*1/8 inch hole punch*

*Sticky Strip*

*Paper cutter with scoring blade*

1. Stamp design all over the cardstock as desired.
2. Score the cardstock at 4.5 and 7.5 inches on the 11-inch side.
3. Score the cardstock at 1.25 on either side on the 8.5-inch side.
4. Fold up the two big front and back sides. Cut up the bottom side score marks just to the fold to create a bottom flap that will be inside the case.
5. Fold in the sides and attach with Sticky Strip.
6. Punch four holes, one in each of the front corners, on the two big front and back sides.
7. Thread ribbon through the holes to make handles, tying in a big enough knot that it won't slip through (thread your tag through the handle as well).
8. **To turn your open case into a purse:** before you add the handles, cut a piece of coordinating cardstock 4x6 inches and round all four corners. Score at 1.75, 2, and 2.25 inches. Attach the back of the lid to the case with Sticky Strip and use a Velcro dot to close it in the front. Punch one hole in the side panel on each of the sides. Use the ribbon to make one handle instead of two.
